NOW WITH EXTRA ATTITUDE

**Hey,  
it's OK...**

...to be appalled by the fact that people born in 2000 can start driving next year. WTF?

...if you and your boyfriend don't have an anniversary date, so you celebrate your sex-iversary instead

...to wish Facebook would stop reminding you what you looked like eight years ago. Can we just not?

...to ask yourself, 'How much do I really need this job?' after hitting snooze on your alarm for the fifth time

...if your wheelie bin goes out more than you do (thanks to GLAMOUR reader @LindseyCurry88)

...to consult different sources for your monthly horoscope until you get the result you were hoping for

...to start thinking about lunch at 10.35am

...if you like your own Instagram post, just to get it up to 11 likes  
(thanks to GLAMOUR reader @AdBassam)

...to think people who chew with their mouths open should *not* be allowed out in public

...if you say, "You didn't get my message? Stupid phone!" – knowing full well you forgot to reply

...to refuse to air kiss, and just plant one on them

Wilderness Festival, they said.  
Just sat nav it, they said
